

Technical Requirements for AI Detection Word Processor

Project: Academic Integrity Monitoring Tool

Contact: Ian Dunham (idunham@kennesaw.edu)

Infrastructure Requirements

Web Server: - Node.js 20 LTS runtime - 2 CPU cores, 4 GB RAM minimum - 20 GB storage - SSL certificate for *.kennesaw.edu domain (suggested: ai-detection.kennesaw.edu or integrity.kennesaw.edu) - Standard uptime (8am-10pm ET, Mon-Fri minimum)

Database: - MongoDB (or compatible document database) - 10 GB storage minimum - Daily automated backups with 30-day retention - Two collections: **submissions** (student work, AI results, keystroke logs) and **sessions** (authentication sessions)

Authentication: - KSU Microsoft Azure AD SSO integration (OAuth 2.0 / OpenID Connect) - Azure AD app registration or use existing KSU tenant app - Redirect URI: [https://\[app-url\].kennesaw.edu/auth/callback](https://[app-url].kennesaw.edu/auth/callback) - User attributes needed: email, display name - Role-based access control (students vs. instructors via email whitelist)

Network & Security

External API Access: - Outbound HTTPS (port 443) to api.gptzero.me for AI detection - Rate limiting: ~10 requests/minute per user - API key stored as secure environment variable (provided by department, not UITS)

Security Requirements: - HTTPS/TLS 1.2+ for all connections - Student data encrypted at rest - Secure session cookies (HttpOnly, Secure, SameSite) - Application logs retained 90 days - FERPA-compliant data handling (no student data leaves KSU except GPTZero API calls)

Deployment

Source Code: Provided via GitHub or KSU GitLab

Runtime: Node.js with Express.js framework

Dependencies: Managed via npm (package.json included)

Configuration: Environment variables for Azure AD credentials, MongoDB URI, API keys

Deployment Method: Standard Node.js (PM2, Docker, or UITS preference)

Estimated Setup Time: 8-16 hours initial deployment

Ongoing Support: Standard UITS application support, monitoring, backups

All source code, documentation, and security assessments available upon request.
